Associate Degree Nursing Program
Application for Transfer Students

The Sacramento City College Associate Degree Nursing program accepts transfer students from other state approved programs. Applicants must complete an assessment examination, at a score of 75% or better, prerequisite to the semester nursing course in which enrollment is being sought. Two attempts are allowed, and the course objectives are available upon request. Enrollment is based on:

1. Space availability.
2. Completion of course prerequisites with required GPAs.
3. Verification of previous education by official transcript.
4. Chronology of application *(accepted in the order in which they are received)*.
5. Letter from the Director and last Clinical Instructor, indicating clinical status at time of transfer. This status letter must be on letterhead and mailed directly to the SCC Director of Nursing.

PLEASE NOTE:

Tests are scheduled during the first weeks of August. You will be contacted by the director when space is available for a testing appointment.

Students seeking advanced placement in the nursing program must have been enrolled in a nursing course within the **last two years** of application date.

At the time you apply, **you must provide course descriptions** for classes taken at colleges outside of the Los Rios Community College District.
