Selection Process

- There is an alternate list (e.g. waiting list) of eligible candidates from the previous year
- Candidates on alternate list must submit return applications each year in order to maintain position on list.
- NOTE: An application is required each year to show continued interest and to maintain position on the alternate list
- The re-application period is March 15 – April 15 each year

Selection Process

- Each year the program accepts a cohort of students and the applicants on the waiting list move up in the queue
- Alternate list is condensed based on attrition and deferments. New eligible applicants are randomized and added to alternate list after the return applicants who submitted return applications.
- The first 30 on the list are offered a slot in upcoming cohort.
- Remaining candidates are assigned an 'alternate number' and sent information via email
